

• THE PROBLEM

Retail India invests blind, loses quietly, and has almost nowhere to turn for real advice.

- › 21.6 Cr demat accounts, most with no professional guidance
- › 9 in 10 individual F&O traders lost money in FY25 (₹1.06 lakh Cr)
- › <1,000 SEBI-registered advisers for 20+ Cr investors

• THE SOLUTION

One app, three engines: Health Check, Construction, and NxanceLM — AI that explains why.

- › **Health Check** — 26 sub-engines diagnose holdings (XIRR, VaR/CVaR, Sharpe/Sortino, Monte Carlo, FinBERT) into a 0-100 score
- › **Construction** — builds an optimized portfolio (Black-Litterman + Ledoit-Wolf) from goals & risk profile
- › **NxanceLM** — AI + live market terminal explaining every output, backed by an evidence trail

• MARKET OPPORTUNITY

\$2.3T TAM

India wealth mgmt AUM by FY29

21.6 Cr SAM

Demat holders without a regulated adviser

4.52 Cr SOM

Active trading accounts — reachable base

At just 0.5% conversion of active trading accounts to a ₹499-999/month subscription, reachable revenue already exceeds ₹100 Cr ARR.

• BUSINESS MODEL

- › Free Health Check hook; ₹99 one-time unlock
- › Tiers: Starter ₹399, Growth ₹899, Pro ₹1,499/mo
- › Later: HNI advisory fees + B2B engine licensing

• WHY NXANCE WINS

- › Diagnosis before advice — not just another builder
- › Explainable, evidence-backed — never a black box
- › Flat subscription — no AUM or commission conflicts
- › Broker- and asset-agnostic

• TRACTION

- › 12 investor interviews; 8 would pay
- › 50 users tested the working prototype
- › 500 signed up on the pre-launch waitlist
- › Full clickable frontend across all 3 engines built

• THE ASK

₹12.49 Cr

Funding ask, for 20% equity

₹49.95 Cr

Pre-money valuation

18 months

Runway: MBP → Public V1 → institutional pilots

8-15x

Typical wealthtech M&A revenue multiple

Capital funds the full 18-month build; ₹76.05L projected subscription revenue (75 → 600 → 2,200 subscribers) is modeled as upside, not netted against the ask.

• TEAM — FOUR FOUNDERS, FULL-TIME
